

Sami Labs gets a thumps up as a Research Centre

Bangalore-based Indian Multinational Health Science Company, Sami Labs Ltd, which manufactures and markets phytonutrients and standardized herbal extracts, specialty fine chemicals, and organic intermediates used in the nutritional, dermaceutical and food industries, has affiliation with the University of Mysore to facilitate the earning of Doctorate degrees for researchers. The University of Mysore has approved Sami Labs Ltd as a Research Centre by recognizing several of Sami Labs' senior scientists as guides under whose supervision aspirants can earn a Ph.D. This opportunity will be offered to employees who have served for more than 5 years with the organization. This program at the Research and Development arm of the conglomerate Sami/Sabinsa Group, fully equipped with the most ultramodern equipment, has the goal of rewarding Doctorate degrees to the aspirants in the specialized fields of Biology, Chemistry, Biotechnology and Biochemistry.
